

OLED 22

22" 4K OLED Reference Monitor

OLED 22 is a stunning new entry into the reference monitor space and SmallHD's new standard for color perfectionists. Featuring a >1,000,000:1 contrast ratio with an absolute black point, and 100% P3 / 135% Rec 709 color gamuts that generate beautiful, true-to-life color accuracy. OLED 22 has virtually no image degradation at any viewing angle, providing a real-time image as vivid and pristine as the final output.
