

Native Production Power Dionic 26V Gold Mount *Plus* Batteries

The DIONIC 26V battery system is a dedicated solution designed to power the high-performance production equipment needed to meet the demanding cinematography standards of today. A native 26V battery with continuous 12A current to deliver over 300W of consistent power means you can run large LED panels for longer, producing hours of full intensity creative lighting or drive power-hungry cine cameras or high-speed cine cameras.

When your production demands peak performance, DIONIC 26V batteries ensure that you have the power.

- 20A max draw
- 12A continuous draw
- Gold Mount Plus
- 99Wh or 250Wh Lithium-ion battery
- Gold Mount Plus provide a secure fit for reliable device communication
- Gold Mount Plus protects lower voltage equipment.
- Displays runtime on built-in back-lit LCD display or through camera EVF
- Over discharge, overvoltage, short circuit and thermal protection

The following brackets are all compatible with all Anton/Bauer 26V Gold Mount Plus batteries:

26V Gold Mount *Plus*

ARRI ALEXA LF, 65, SXT

Attaches one 26V battery to the back of the ARRI ALEXA LF, 65, and SXT cameras. Prioritized 2pin DC input to support block batteries with hot-swap backup and OLED screen for voltage information. Includes two regulated 15V P-Tap ports.

SKU: 8075-0253

26V Gold Mount *Plus* Hotswap Bracket

For all cameras with a 26V gold mount plus bracket

The bracket allows two native 26V Gold Mount Plus Batteries to be attached and swapped out to enable non-stop shooting. The perfect solution for power hungry cameras like the ARRI ALEXA35.

SKU: 8075-0352

26V Gold Mount *Plus* with Molex Connection

Phantom Flex 4K

Operate the 140-Watt Flex 4K for ~1.5 hours with a Dionic 26V 240Wh battery. When handheld shooting means light weight is critical, shoot with the Dionic 26V 99Wh battery and operate for ~45 minutes on a single battery.

SKU: 8375-0224

26V Gold Mount *Plus* Dual Battery Brackets

A3-Pin / 4-Pin XLR Output

26V Dual Battery Bracket for high-power LED lighting such as the Litepanels Gemini 2x1, ARRI SkyPanels or similar fixtures. Run lights at full intensity using two hot-swappable Anton/Bauer 26V batteries.

SKU: 8075-0255 (3-Pin) / SKU: 8075-0256 (4-Pin)

26V Gold Mount *Plus*

ARRI ALEXA 35

Installs directly on the back of the ARRI ALEXA 35 camera, enabling native 26V Gold Mount Plus Batteries to be used. Full communications capability via SMBus through the pogo pins. This plate is fully compatible with the ARRI audio extension module (AEM-1) and power distribution module (PDM-1).

SKU: 8375-0254

26V Gold Mount *Plus* Sharkfin Battery Bracket

ARRI ALEXA LF, 65, SXT

Attaches two 26V batteries directly to the back of the ARRI ALEXA LF, 65, and SXT cameras. Prioritized 2pin DC input to support block batteries with hot-swap backup and OLED screen for voltage information. Includes two regulated 15V P-Tap ports.

SKU: 8075-0254

26V Gold Mount *Plus* with LEMO Connection

ARRI ALEXA Mini

Operate the Mini for ~4 hours on a single Dionic 26V 250Wh battery. When handheld shooting means light weight is critical, shoot with the Dionic 26V 99Wh battery and operate for ~1.5 hours on a single battery.

SKU: 8375-0223
